

# E Reg COP's Value Proposition

The Results of the Launch Meeting

October 1, 2001

# E Reg COP: What Is It ?

- Community of Practice Among Federal Regulatory Agencies
- Knowledge Sharing Around E-Regulation Issues
- Model Pilot For the KM Working Group of the Federal CIO Council

# What Kind Of Knowledge Sharing?

- Primary Knowledge Sharing : “Good Practices” to be observed and “Poor Practices” to be avoided
- Secondary Knowledge Sharing:
  - Exchange information about what agencies are doing
  - Learn more about managing the e-filing life cycle
  - Learn about specific software development techniques
  - Identify common problems and create solutions
  - Inquire about particular e-filing topics

## Who We Are

- “E Reg COP is a cross-agency community of practice among federal regulatory organizations which focuses primarily on sharing insights about “good practices” to be observed and “poor practices” to be avoided as those organizations transform from being paper process dependent enterprises to electronic enterprises.”

## Two Other Types Of Activities

- Proactive in educating legislative branch
- Work with OMB on its E-government initiatives

# Report To KM Working Group

- KM Working Group's Case Study
- Document our history
- Soft Metrics: Insight Collection
- Hard Metrics: Think About This

# “Tangible Product”

- Possibilities
  - Set of good practices for on-line forms
  - Primer on how to make a business case for e-filing related issues
  - Model procedure for moving from paper to electronic rulemaking
  - Road map of methodologies to use in capturing functional requirements
